HOW TO DETERMINE YOUR RING SIZE

MEASURE CURRENT RING

1. Select a ring that properly fits your finger
2. Place the ring over the circles below. Match the inside edge of the ring to the circle nearest in size. This measurement refers to the diameter of the ring.
3. If the ring falls between two sizes, order the larger size.

Measurements match the inside of the ring

TIPS FOR MEASURING RING SIZE

MEASURING YOUR FINGER

Your ring should fit your finger comfortably; snug enough so that it will not fall off, but loose enough to slide over your knuckle.

Finger size changes depending on the time of day and the weather. For best results measure your finger size:

1. At the end of the day and when your fingers are warm (Fingers are smaller in the early morning and when cold.)
2. Measure finger size 3 to 4 times to eliminate an erroneous reading.

Avoid using string or paper to measure ring size as these materials can stretch or twist, yielding an inaccurate measurement.

A WORD ABOUT RING SIZES

Please be aware that ring sizes shown on Star Jewels reflect sizes used in Australia. If you are not from Australia, use the International Ring Size Chart on the previous page, to convert your normal ring size to the Australian size. For example, a ring size 4 in the U.S. would be size H in Australia.

TIPS FOR BUYING THE RING AS A SURPRISE

Ask your significant other's friends or mother if they know her finger size. Borrow one of your significant other's rings (from the correct finger) and use the ring measurements above to determine its size.

YOUR LOCAL JEWELLER

While the above methods are a good guide, nothing will be more failsafe than getting your local jeweller to measure your size accurately. This will avoid any resizing issues.
